MAXIMUM COMFORT AND EFFICACY IN EACH TREATMENT

JACKET

Covers the entire upper torso, from the hands to the shoulders, including the back.

The jacket is an optional accessory not included with the device.

24 CHAMERS

- On both garments: trousers and jacket.
- Distributed in fish scale format, with no gaps between them, for a smoother and more effective movement.
- Homogeneous pressure over the entire treatment area
- No pressure loss zones
- Possibility to activate/inactivate chambers and modify pressure during treatment
- Two types of massages: wave and sequential

TECHNOLOGY

- Up to 5 lower-body and 3 upper-body programmes
- Two separate plugs to connect the garments to the device
- Express safety release after treatment
- Internal wiring system
- Ability to activate/deactivate chambers and modify the pressure during treatment
- Electronic pressure control system
